FOR SCHOOL AND CLUB COACHES

Coach the whole week. Not just the ninety minutes.

Your team's season in one account: the calendar, training plans, lineups, substitutions, scouting and tryouts. When a family connects, the home training you set comes back counted.

1 Saturday, ready by Thursday

Home lists what is still waiting before the next match, most pressing first: who can play, the lineup, the session plan.

2 Set it at practice, see it counted

Hand out your code. A target you set lands only when a parent says yes, and on four drills the family's phone counts the touches.

3 A record that writes itself

Attendance, match minutes, injuries and load, tryouts and goals, read from what you already logged. Nothing to type twice.

4 Nobody ranked

Your team view is totals and counts, and no row names a player. A season report goes to the player's parent alone.

One soccer platform, four parts. Each works on its own; connect them by code if you want to.

The player | **Coaches** | Personal trainers | Homeschool

You never need a family to sign up for you to coach their player here.
